(b) what are the steps being already taken or proposed to be taken to boost business travel to India?

THE MINISTER OF CIVIL AVIATION AND TOURISM (SHRI GHULAM NABI AZAD): (a) The number of business tourists is calculated on the basis of declaration made by tourists with regard to their "purpose of visit" on the Disembarkation cards supplied to them. On this basis, number of tourists who put business as their purpose of visit and total number of tourists excluding the nationals of Pakistan and Bangladesh who visited India during 1992, 1993 and 1994 were as follows:

Year	Number of Tourists who put business as their purpose of visits	Total number of Tourists
1992	254382	1434737
1993	211707	1442643
1994	168246	1562016

(b) Various steps taken for the development of tourism in India include augmentation of availability of accommodation in both business and tourists centres, improvement of facilities for tourists, introduction of computerised reservation system etc. Publicity through print and electronic media in originating markets is used. Promotion is also done through distribution of literature and personal contract on telephone etc. These steps will boost tourist (including business travel) to India.

Development of tourism is a continuous process and it involves improvement of infrastructural facilities, publicity and promotion, development of human resources etc.
